Yellow Fever Continues Its Deadly Turks Reported to Have Done More

There Are More Than Four Hundred Cases of the Dread Disease at the Unfortunate Mexican City.

P. Sessions of Rockdale, Tex., has arrived here to continue the investigation of the yellow fever situation which was begun by Dr. George R. Tabor, the state health officer at Austin. Dr. Sessions in an interview said: "It is my intention to stay here until I have determined four things: Whether yellow fever exists here; whether the quarantine is sufficient to keep it out; whether baggage and freight from the infected district are disinfected sufficiently and whether the sanitary condition of this city is favorable or adverse to breeding disease. When I have satsible the quarantine will be raised on a favorable report."

Reports from Linares show that there are more than 400 cases. Fifty-two deaths from yellow fever were reported last week. The death rate is growing no lighter and the authorities are meeting with great difficulty in stamping out the disease. Houses are being burned and disinfectants used. Still many new cases develop each day. The average death rate for the past six days has been ten a day. There has been a gradual increase.

Sofia, Bulgaria, Sept. 12.-The revolutionary headquarters here has received from Burgas news of fearful atrocities committed by the Turks and Albanian soldiers in the vilayet of Adrianople. A squandron of Turkish cavalry intercepted and slaughtered fugitives attempting to cross into Bulgaria. Sixty Bulgarians were killed within three kilometres of the frontier. The insurgents awaited the near approach of the troops and then hurled boms at them. After two hour's fighting the Turks were forced to retire with the loss of twenty men killed many wounded. The losses of the insurgent force were slight.

The first intention of the Greeks aiding the Bulgarians against Turkey appears in a circular addressed by the eneral staff of the eight revolutionary districts to the Greek towns and villages in the vilayet of Adrianople. It expresses pleasure at hearing of the Greek's desire to join their Bulgarian brethren in the fight for liberty and invites the Greeks to send delegates to formulate plans for joint action.

STORM WAS GENERAL.

Over Fifty Serious Casualties Are Reported to Shippers.

London, Sept. 12.-While the details of the havoc wrought by the storm which raged over the British isles Thursday are incomplete, the reports coming in show that the devastation was general and it is feared that the loss of life is much greater than was at first supposed.

Lloyds already report over fifty rious casualties to shipping. Many vessels foundered, several with their crews. A great number of minor craft is believed to be lost, and the bodies washing ashore continue to swell the

list of fatalities. The gale sprang up with sudden fury from the southwest and the wind blew with a velocity at times reaching seventy-two miles an hour. This continued for several hours. All the coast suffered and the agricultural regions in the interior report incalculable damage owing to the late harvest. For some time telegraphic communication was stopped and the land lines are still interrupted. In addition to the deaths from drowning, reports from the inland give many fatalities resulting from various causes incident to the storm.
